

Language Boost Course

This course equips students with the practical language skills and cultural awareness they need from the moment they arrive in their host country - from essential expressions and situational vocabulary to everyday customs and traditions.

Choose from:

French, German, Spanish or Italian

Hours

15 hours in total
1.5 hours per week

Each lesson will include:

- A linguistic component focused on vocabulary and grammar.
- A practical section to help them handle everyday situations with confidence.

Language Boost Course

Course Components

Linguistic

Students gain practical language skills for everyday life abroad: covering introductions, directions, food, shopping, accommodation, medical visits, and school tasks.

Lessons focus on speaking & listening to build fluency and confidence.

Cultural

Each course includes Culture Corners - interactive sessions where students explore traditions and daily life in their destination country.

Students will learn about etiquette, cuisine, festivals, school life, community, and cultural values.

These sessions deepen students' understanding of local life, making their exchange program both linguistically enriching and culturally meaningful.

Teaching Approach

Ideal for those who enjoy small, dynamic classes, this course uses interactive, communicative methods that get students speaking quickly in a supportive environment.

Our participation-based approach emphasises real-life communication, helping students feel confident in both social and academic situations throughout their stay abroad.
